Welcome to our practice

We are proud of our reputation for offering quality dental care to all members of society in a modern practice environment, including full wheelchair access.

We aim to provide a comprehensive and high quality dental service for you and your family, and to make your visit a pleasant experience.

We will strive to help you achieve a healthy mouth with a smile you can be confident about.

We will endeavor to meet any reasonable requests to see specific team members for your treatment, subject to capacity.

Safety

As a modern and caring practice all necessary precautions are taken to safeguard patients. Recommended guidelines for sterilization etc. are followed.

We comply with all the regulations relating to Data Protection and Freedom of Information. You have a right of access to the data we hold about you, our data protection policy is available upon request.

We ask that you treat our staff with the respect you expect from us. Action may be taken against patients who fail to behave appropriately.

Range of care

We are happy to treat all age groups from the very young to very old. We encourage attendance of very young children to establish preventative care throughout life.

A comprehensive range of modern dental care is available under the terms of the National Health Service at this practice to help you keep your mouth healthy.

We are also able to offer a wide range of private, cosmetic treatments such as bleaching, veneers, modern white fillings and adult orthodontics.

The Cost

If you are under 18, or under 19 in full-time education, you qualify for free NHS Dental Care.

The cost of treatment under the NHS is set by the government and falls in to three bands, either £21.60, £59.10 or £256.50, depending on the type of treatment involved.

After your examination an agreed treatment plan and estimate will be given to you.

Free treatment, or help with the cost of treatment, is available to patients on a low income or receiving some benefits. Please ask the reception staff for details.

If you are worried about the cost of treatment, or find any point difficult to understand, please ask.

Missed Appointments

If you miss an appointment during a course of treatment and do not contact the practice within seven days we will close that course of treatment. We will only be able to see you again if we have the NHS capacity and, if you pay for your treatment, a new charge will become payable.

In agreement with the Area Team, anyone who misses two appointments in a 12 month period will no longer be offered treatment at this practice.

Appointments

We will be pleased to make an appointment by phone or email, or by calling in at the practice during normal working hours. We try to see patients at the appointment time but if you are kept waiting there is always a good reason – please be patient.

Emergencies are always seen as soon as possible.

Check-ups

Your dentist will advise you on the most appropriate recall period for you in order to maintain your healthy mouth
