

Hello. We hope you enjoy reading our first practice newsletter. We plan on releasing one every 6 months. All feedback (good and bad) is welcome 😊

Staff news and Achievements

Pauline Hargreaves is now the practice business manager and Natalie Robinson has taken over Pauline's role and as practice manager. She has recently qualified in a Level 4 Diploma in Dental Management- Well done Natalie!

We welcome Alex Carruthers as a permanent member of the team, and also our two new Foundation Dental Practitioners Damien Percival-Smith and Gary Lunt. Lindsey Turpin has now returned off Maternity leave and Gemma Bowker will be returning in November.

What we offer

Private Adult Orthodontics (braces) has become one of the most popular treatments we offer and thanks to Ian's years of experience we are delighted to offer you a way of achieving the straight smile you have always wanted. One popular option available allows us to straighten teeth without having to show any brackets with a system called lingual orthodontics. The brackets are placed behind the teeth (so they cannot be seen). If you are interested, please speak to your dentist

What you say

We have recently performed our annual patient survey and we are delighted to hear what you think about us. The results were very positive, with 97% saying the practice was outstanding/very good. Here are some of the comments:

"All round excellent professional service."

"Staff know what they are doing been a patient for 20 years. Grown and improved over the years."

"Feel at ease and explain everything."

"Reception helpful, polite and give times to suit me."

Competition

Do you have a little budding artist?

We've recently repainted the practice. Out with the lovely, but old mustard yellow and in with the new willow grey effect. However, it has left some bare walls which we would like to fill with something nice.

If so we would love for them to enter our competition and send us a dental themed picture. Closing date November 20th.

The best entries will be displayed in the practice. The age groups are 0-7 , 8-11 and 12+. The winner of each group will receive a £20 shopping voucher.

Please drop off or send your entries into Dentistry for All with your name, age and address.

The results will be announced 2 weeks after the closing date via our Facebook page – Good luck!

Sugar tips

We believe that prevention is the best form of treatment. Dental treatment has rapidly improved over recent years but nothing is as good as your own natural enamel and dentine. At Dentistry for All we are committed to life-long prevention and the best advice is a low sugar diet and good oral hygiene. Please be aware of hidden sugars!
