We would like to welcome Billie and Selina as permanent members of our team. Billie has enrolled on a Dental Nursing NVQ course and Selina is working towards a Reception/Customer Relations NVQ. Leona has now returned off maternity leave and will continue to be our stock control nurse.

Congratulations to Sarah on passing the orthodontic Nursing Course.

We have said goodbye to our dental nurse Louise as she sets off on her travels to Australia, We are sad to say goodbye to Angela our therapist who left the practice at the beginning of April after 8 years as part of our team, also to Imran and Natalie our dental nurses who are leaving at the end of the month. We would like to wish them all the best in the future.

Pilot to Prototype

As you may be aware over the last 4years the practice has been taking part in a pilot scheme implemented by the NHS and the department of health to look at new ways of improving our care to you, we have now moved into the next stage and are trialling a prototype.

What will this mean for you as a patient?

Your dentist will carry out an oral health assessment. During the assessment your dentist will examine your teeth and gums, based on this your dentist will discuss with you what you can do through self-care to improve your oral health.

What is self care?

Self-care is what you can do by yourself to improve your oral health, for example:

- Eating less sugar.
-Improving brushing and flossing your teeth.
-Using Fluoride toothpaste.

New Patient Charges

As from the 1st April the NHS prices are:

Band1- £19.70

Band2- £53.90

Band 3- £233.70
